Subject: NC-ECO proposal
Attachments: NC-ECO proposal 2017 v1.docx

OK so here's what you guys have been waiting for. My first draft of an NC-ECO proposal. This is meant to be a starting point, so please feel free to hack and edit all you want. Also - my name in the title line is not meant to imply that I want ownership of this. I just didn't want to stick your names on something you haven't had a chance to even read yet. I am sending this in parallel to Rob Lamme from the Coastal Federation. He forwarded an email to me last night indicating that the House NC River Water Quality Select Committee is meeting next week to consider a bill! So, we gotta get this in front of them post-haste. I didn't realize the timing was THAT short, but apparently it is.

Let me know what you think...
Lee
